

# Congratulations to Smoky Hill TSA!

The Smoky Hill TSA (Technology Student Association) design teams had an incredible showing over the weekend at the state championships. Over fifty students spent the year preparing for this event and for such a small team, we took TSA by storm! Twenty-one students qualified for TSA Nationals in Orlando this year. It was awesome!!!

*What is TSA? It is a student STEM based organization which fosters personal growth, leadership, and opportunities in Science, Technology, Engineering, and Mathematics (STEM); members apply and integrate these concepts through co-curricular activities, competitions, and related programs.*

Please take a moment to review the impressive list below and congratulate their efforts.

~Cornell

# **TSA State Champions!**

## **First Place: Animatronics (Robotics)**

Katlynn Webster, Azariah Beyene, Walid Ferjani, Garrett Iverson, Lydia Abera

## **First Place: Scientific Visualization**
